

Property For Sale in Ajman Recommended

Foreign buyers have been advised to consider purchasing property for sale in Ajman.

According to property specialist Sajeer Babu, the Ajman area is much cheaper than neighbouring emirates such as Dubai and Abu Dhabi.

Speaking to the National, he said it could therefore represent a far better investment opportunity.

Mr. Babu commented: "You can have a one-bedroom flat for [£55,000], while it would cost you four or five times that price in Dubai."

He added that since property values in Ajman are starting from a relatively low base, they are more affordable and offer more growth potential.

This means that buyers of property for sale in Ajman could potentially collect higher returns than those who are investing elsewhere.

Earlier this month, DSL Exhibitions predicted that property for sale in Ajman could rise in value by as much as 40 per cent during the next six months.

Marketing director Tessa Morris told GoWealthy.com that confidence is high among property professionals in both the residential and commercial sectors in the emirate.
